

AquaRES

Aquatic species Register Exchange and Services

Workshop

29 September 2015

Some of your yesterday expectations

Finer habitat categories

Improvements of data entry in the two directories

Correct citations of publication/source

Why would FADA not be a « context » within WoRMS ?

Less manual work in updates

Better understand how to use the WoRMS platform

A simple web-based interface for updating data in FADA

Better connection with other databases

Easier handling of biogeographic data

Publication

Initiatives for recruiting new taxonomic editors
