

MUSÉUM
D'HISTOIRE NATURELLE
NEUCHÂTEL

Ville de Neuchâtel

To whom it may concern

Neuchâtel, October 3rd, 2005

We certify that Dr Philippe Cuénoud, although not a member of our staff, is affiliated with our museum in the context of his work with the IBISCA programme. Dr Ph. Cuénoud has taken part in some of the field work in Panama as well as the workshop in Brussels in July 05. He will continue entomological and botanical work with the programme. Further technical details of his collaboration with our museum will be discussed as we go along.
