Würzburg, 11th October 2005

TO WHOM IT MAY CONCERN

This is to confirm that the Department of Animal Ecology and Tropical Biology, University Würzburg is interested in supporting the IBISCA-project in the future, as this programme will contribute significantly to our understanding of the spatio-temporal distribution of tropical biodiversity, and its relation to ecosystem services and processes.

Prof. K.E. Linsenmair

Head of Department

Prof. Dr. K. E. Linsenmair
Lehrstuhl Zoologie III
Biozentrum, Am Hubland
