## Workshop

### ATBI+M recording techniques and protocols

[Info](#) - [Report](#) - [Programme & abstracts](#) - [Photo gallery](#)

#### Schedule of lectures and list of speakers

*Day 1: June, 12, Tuesday*

Arrival of participants

18:00 Welcome reception

Day 2: June, 13, Wednesday

- 9:30 MNCN Auditorium  
**EDIT presentation** - Marian Ramos  
[Show abstract](#)  
**ATBI+M databases** - Klaus Riede  
[Show abstract](#)  
**Data input and management on the web site INPN** - Olivier Gargominy  
[Show abstract](#)
- 11:30 MNCN Auditorium  
**Bioacustics** - Rafael Márquez (MNCN, Madrid), Klaus Riede (SMNS, Stuttgart)  
[Show abstract](#)  
**Essentials of specimen preservation used in molecular taxonomy** - Johannes Dambach (Zoologisches Forschungsmuseum Alexander Koenig, Bonn)  
[Show abstract](#)  
**Anthos. Management of floristic information in Internet** - Leopoldo Medina (RJB, Madrid)  
[Show abstract](#)  
**Geographic information in Internet. Geoplatform EDIT** - Pere Roca, Pablo Sastre, Jorge M. Lobo (MNCN, Madrid)  
[Show abstract](#)
- 15:30 MNCN premises  
**Visits: anechoic chamber, sound library, collections, laboratories**

Day 3: June, 14, Thursday

- 9:15 El Ventorrillo premises  
**Sampling methods for marine flora and fauna in coastal areas** - José Templado (MNCN, Madrid)  
[Show abstract](#)  
**Litter and soil sampling, incl. MSS** - Miguel A. Alonso-Zarazaga & Teresa Domingo Quero (MNCN, Madrid)  
[Show abstract](#)
- 11:15 El Ventorrillo premises  
**Inventory of flying insects with Malaise/flight intercept traps: sampling and sorting protocols and techniques; overview of some study-cases** - José Luis Nieves Aldrey (MNCN, Madrid)  
[Show abstract](#)  
**Collecting microhymenoptera with sweeping net: sorting and mounting** - José F. Gómez Sánchez (MNCN, Madrid)  
[Show abstract](#)  
**Collecting, dissecting and rearing insects from plant galls** - Enrique Medianero (MNCN, Madrid)  
[Show abstract](#)
- 15:30 El Ventorrillo premises  
**Practicals: Malaise/flight intercept traps, sweeping net, insects from plant galls** - José Luis Nieves Aldrey, José F. Gómez Sánchez, Enrique Medianero (MNCN, Madrid)  
[Show abstract](#)  
**Practicals of litter and soil sampling, incl. MSS** - Teresa Domingo Quero & Miguel A. Alonso-Zarazaga (MNCN, Madrid)  
[Show abstract](#)

19:00 *Bioacustics practicals* - Klaus Riede (SMNS, Stuttgart)

### Day 4: June, 15, Friday

9:15 El Ventorrillo premises

***Light trapping methods*** - Christoph Häuser, Axel Steiner and Dietger Hausenblas (SMNS, Stuttgart)

[Show abstract](#)

***Georeferencing. Global positioning system and geographic references*** - Pablo Sastre, Pere Roca, Jorge M. Lobo (MNCN, Madrid)

[Show abstract](#)

***The Oomycetes: isolation, identification and characterization*** - Javier Diéguez-Uribeondo (RJB, Madrid)

[Show abstract](#)

11:15 El Ventorrillo premises

***Sampling the epigeal waters*** - Antonio García-Valdecasas (MNCN, Madrid)

[Show abstract](#)

***Studying groundwater environment*** - Marta Martínez-Gil & Ana I. Camacho (MNCN, Madrid)

[Show abstract](#)

16:00 Lozoya River

***Practicals: Global Positioning System (GPS) in the field, and transformations*** - Pablo Sastre, Pere Roca, Jorge M. Lobo (MNCN, Madrid)

[Show abstract](#)

***Practicals of limnology, including protocols of sample collection and characterization of Oomycetes*** - Javier Diéguez-Uribeondo, Antonio García-Valdecasas, Marta Martínez-Gil (RJB + MNCN, Madrid)

[Show abstract](#)

20:00 Laguna de Peñalara / El Ventorrillo premises (in parallel)

***Monitoring the Amphibian World Crisis in Laguna de Peñalara*** by Jaime Bosch (MNCN, Madrid)

[Show abstract](#)

***Light trap demonstration*** - Christoph Häuser (SMNS, Stuttgart)

### Day 5: June, 16, Saturday

11:30 El Ventorrillo premises

***Standardized collection of data & tracking of specimens in large biodiversity inventories*** - Maurice Leponce (Royal Belgian Institute of Natural Sciences)

[Hide abstract](#)

A rigorous planning of sample collection, tracking of specimens, coordination of simultaneous sampling programmes and data integration into a single database for the whole survey allow a cost-effective and lasting use of biodiversity information. A seven steps procedure from the preparation of field work to the final data exploitation will be presented.

***Molecular ATBIs (MATBIs)*** - Isabel Rey (MNCN, Madrid)

[Show abstract](#)

***Species and ecological guild composition of corticolous arthropod assemblages on tree bark*** - Jürgen Schmidl (Bioform)

[Show abstract](#)

15:30 El Ventorrillo premises

*Practicals in parallel: Bark spraying* - Jürgen Schmidl (Bioform)

16:45 *General Workshop Discussion* - Chairs: Marian Ramos (Head WP4) and Christoph Häuser (Head WP7)

End of Workshop
