29 October 2005

To whom it may concern:

This letter certifies that Dr. George D. Weiblen will support and participate in the International Biotic Survey of Soil and Canopy Arthropods (IBISCA) activities in the future.

The IBISCA program is an important initiative and will contribute significantly to our understanding of tropical biodiversity, its distribution and its relationships with ecosystem services and processes.

Sincerely,

Dr. George D. Weiblen  
Assistant Professor, Plant Biology  
Herbarium Curator, Bell Museum of Natural History
